ARC-M-92

AD HOC REQUIREMENTS COMMITTEE ON PROJECT CHALICE (ARC)

Minutes of Meeting Held in Room 214
Administration Building, Central Intelligence Agency
at 9:00 a.m., 31 July 1958

P R E S E N T

James Q. Reber
Chairman

25X1A

Colonel William A. Dodds, OACSI
Colonel Herbert A. Jordan, OACSI
Mr. Raymond E. Adcock, OACSI
Captain William M. Stevens, ONI
Commander J. M. Larsen, ONI
Lt. Charles J. Weishar, ONI
Colonel James H. Macia, Jr., AFCIN
Lt. Col. Charles D. Fisher, AFCIN
Major Robert J. Coursey, AFCIN

Middle East Requirements

1. The Chairman stated that in view of the international situation, the continuing steady nature of Middle East reporting, and operational considerations, it is planned that the Middle East sorties should be at the rate of four per week, two of these occurring on one day. It is understood that Admiral Frost and the Sixth Fleet continue to desire daily coverage of the submarines at ALEXANDRIA if at all feasible. The Chairman said that he would report this view to General Cabell in Mr. Bissell's absence, and it may be that General Cabell would wish to speak to Admiral Frost directly about the matter.

(Note: After the meeting, the Chairman called the Army, Navy, Air Force, and OCI requesting that on Friday morning, 1 August 1958,

their requirements for the week extending to the morning of 8 August 1958 be forwarded to the Chairman's office at 8:30 a.m., 1 August 1958. This will permit Operations DPS/DCI to program the four sorties to obtain adequate coverage. In the event that from day to day special requirements come to light, these may be forwarded to the Chairman's office at 8:30 a.m. It is hoped that these exceptions may be kept to a minimum.)

Peripheral Photography

2. The Army raised the question of why nothing had been accomplished to meet the requirements levied for peripheral photography. In this connection, the Army displayed an exhibit showing extraordinarily high quality both vertical and oblique enlargements from Mission 6012 indicating real capability not only for recognition of cultural features but also for photo interpretation.

3. The Chairman stated that he would review the existing record with regard to requirements levied upon Operations DPS/DCI on this subject and vis-a-vis ELINT peripheral coverage and as soon as feasible convene the representatives in his office for the purpose of presenting, if desired, the best case possible for immediate action for peripheral photography.

JAMES Q. REBER
